## PROJECTS

---

### Recipe Sharing Platform

- Created a web-based recipe-sharing platform facilitating users to discover, upload, and share recipes.
- Developed user-friendly interfaces for browsing and sharing recipes.
- Implemented features including recipe creation/editing and social engagement features for community interaction.
- Aimed to provide an interactive experience for food enthusiasts to explore, contribute, and find culinary inspiration.

### Covid Awareness

- Developed a Covid19 Awareness Website using HTML, CSS, and Bootstrap.
- Provided detailed information about precautions, symptoms, and causes of Coronavirus, including myth busters.
- Served as a comprehensive resource for individuals seeking updates and information related to COVID-19.

### Travel Booking Website

- Developed a travel booking website enabling users to search for flights, hotels, and vacation packages, and manage reservations.
- Implemented features such as real-time availability, price comparison, and integration with third-party APIs for booking and payment processing.
